

Tumblewing Glider Template

Instructions

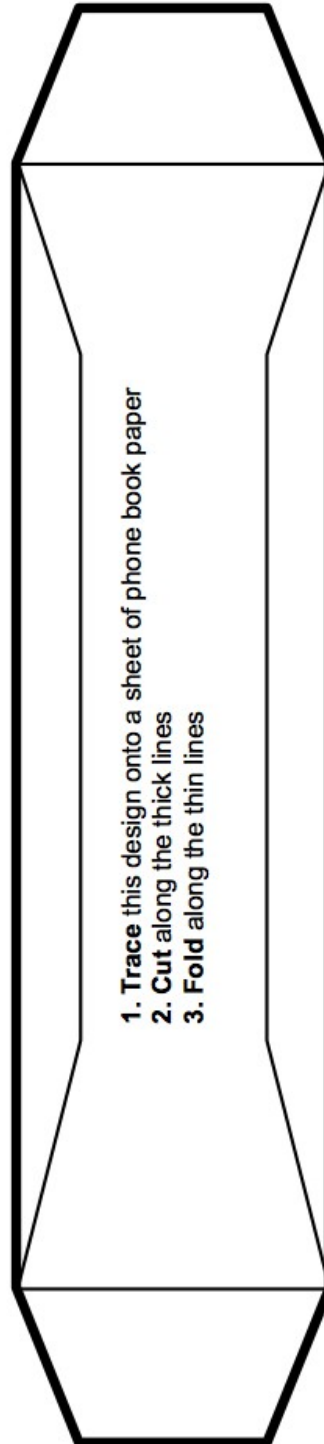

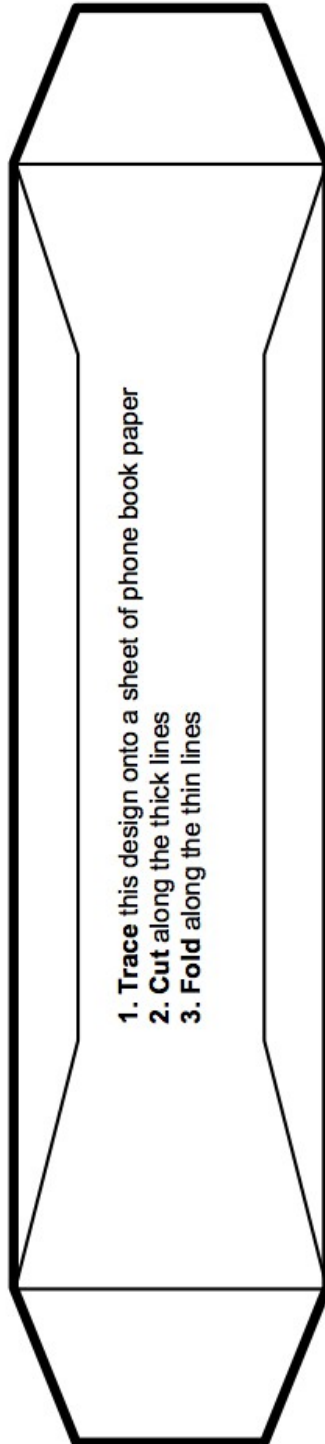

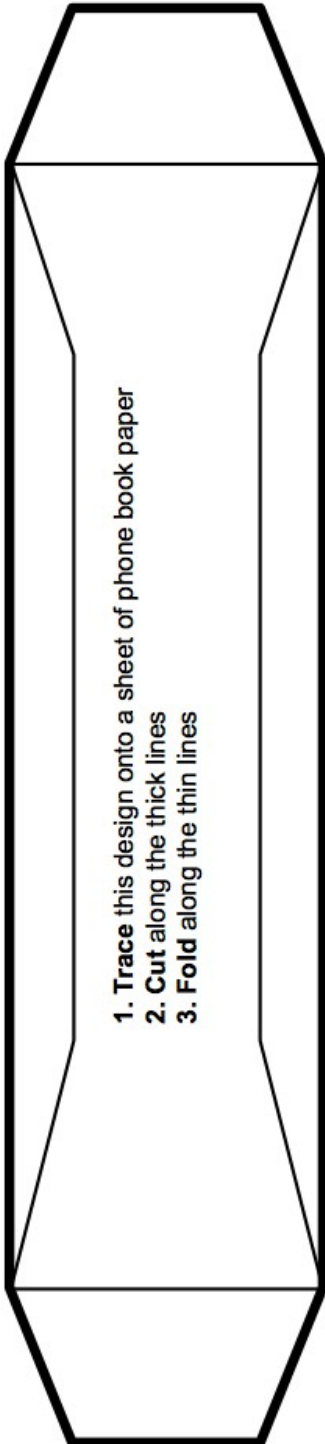

1. Tear a page out of your local telephone book.
2. Either lay this telephone book paper over the top of the template (on next page) and trace over the design, or print the template directly onto the paper using your printer.
3. Carefully cut out the Tumblewing Glider design, along the edge of the thick lines.
4. Fold the winglets (outer edges) up at 90 degrees as illustrated below.
5. Bend the leading edge (front) down slightly and the trailing edge (back) up as illustrated below.
